

Voi Safari Lodge

The Pride of Tsavo East

Voi Safari Lodge, one of the properties owned and managed by Kenya Safari Lodges & Hotels Ltd (KSLH) was officially opened on November 15, 1967.

The Lodge is strategically situated in one of the World's Largest Game Park – the Tsavo East National Park.

The Lodge is one of the most innovatively conceived and constructed wildlife retreats in Kenya. One can view a wide variety of game coming to and from two nearby water holes throughout the day from every corner. Set in attractive gardens the lodge's panoramic outlook is spectacular and offers a serene view of the park.

Because of its access the Lodge is popular with holiday makers and tourists on transit who use it as a stopover point between Nairobi and coastal towns

Game Drives

The Park is home to the largest Elephant herds in the country covered in red dust from wallowing and dust bathing.

The region was made famous due to the Man-eaters of Tsavo, two Lions that killed around 130 people during the construction of the railway line in 1898. Today tourists can see the large prides of Lion which call the Tsavo National Park home.

It is also home to a good population of Giraffe, many Zebra, Impala and Gazelles, as well as irritable Buffalos.

Predators are represented by large prides of Lions, elusive Leopards, and the fastest animal on land - the Cheetah.

Nature/Adventure

A visit to some of the greatest sites and wonders of the world.

- ⬆ Mudanda Rock - this rock towers above a natural dam which draws many Elephants to slake their thirst every day. Most of Voi Safari Lodge sundowner dinners and bush breakfasts are set-up on this rock.
- ⬆ Lugards Falls is where the Galana River cascades over a series of rapids created by interestingly shaped rocks.
- ⬆ One of the Park's most recognizable features is the Yatta Plateau which is the longest lava flow in the World, stretching for over 300km (185 miles).
- ⬆ The Park offers the quintessential *safari experience*, and the game viewing is usually best around water sources such as the Aruba Dam.
